

ProCel® ProtoCol

Enteral Nutrition

- Remove cap & peel back safety seal, or open single serving packet
- Pour pre-measured scoop or individual serving packets into water flushes in graduate
- Stir then suction via piston syringe and add through the feeding tube
- Flush G-tube with 60cc of water to avoid any possible crustacean buildup in the lumen of G-tube
- Place cap back on can, return to med cart
- Date can after opening & use within 90 days

Oral Nutrition

- Remove cap & peel back safety seal, or open single serving packet
- Pour pre-measured scoop or individual serving packets into the bottom of cup. Mix it with resident's favorite drink (i.e., coffee, juice or liquid supplement) and stir.
- Minimum of 2 oz required for oral use
- ProCel® can also be added to foods hot or cold during food preparation (avoid boiling of protein)
- Date can after opening & use within 90 days
